The Honorable,  
The Secretary of the Interior.  
(Through the Commissioner of Indian Affairs.)

Sir:

Investigations by the Survey and the Office of Indian Affairs indicate that the upper portion of Klickitat River in the Yakima Indian Reservation has possibilities of valuable power development. Lands on the lower portion of this river were included in Power Site Reserves No. 46 and No. 53, approved by the President September 17, 1910, and November 8, 1910. In order to fully control power development on this stream, I recommend that the following described lands, which border Klickitat River, be reserved from location, entry, sale, allotment or other appropriation in accordance with the provisions of the act approved June 25, 1910 (36 Stat., 847), and that no trust or fee simple patent be issued as regards these lands until further notice. The area included in this recommendation is approximately 6,103 acres.
